**A Safety Data Sheet is not required for this product according to OSHA Regulation 29CFR 1910.1200(g).**

A hazard evaluation has been conducted on the constituents in this product in accordance with OSHA's Hazard Communication Standard, 29 CFR 1910.1200(d). It has been determined that the product is not a hazardous chemical, and does not pose a physical or health hazard according to the guidelines set by OSHA's Hazard Communication Standard.

## **SECTION V - RECOMMENDED PRECAUTIONS**

**Containment:** During production, containment for the live attenuated virus follows BSL-1 containment practices. Biosafety Level-1 organisms are not known to cause disease in healthy adults.

Cultures of *Leptospira* are handled using BSL-2 precautions. Once the organism is inactivated to manufacture the vaccine, there is no risk to workers or the public.

## **SECTION VI - HANDLING INFORMATION**

**Spills:** A spill cleanup procedure should be developed. If none is available, contain material by covering with absorbent material. Minimal personal protective equipment includes safety glasses, lab coat/work uniform, gloves, and slip resistant shoe covers. Cover with paper towels. Soak the towels with freshly prepared dilution (1:10) of bleach in tap water. Allow soaked toweling to sit for at least 10 minutes. Carefully gather all waste materials into a plastic bag, then dispose of by burning. Alternately, dispose of the bag as infectious waste/ (RMW) via a RMW contract provider.
