On-Board Power Strip
All powered equipment can be plugged in. No more cords on floor.

Now Featuring
Integrated Thermo-Safe™ Warming System!

Foot Switch
Swivels. Always faces you.

Efficiency, Perfected... Save Time On Every Procedure

The key to improving efficiency and preventing repetitive stress injuries is positioning everything you need at your fingertips, so that you are never reaching awkwardly for controls or supplies. Only the Olympic Advanced Dental Table features floating swing arms that allow you to position your instrument tray, IV pole, patient monitor, anesthesia unit, procedure light, high-speed dental unit and laptop in the precise locations that match your body mechanics, minimizing strain on your arms, shoulders, neck and back. And because all your equipment is moving up and down as a single operator, you can now move from seated to standing with ease, either for ergonomic comfort or better patient visualization.

Finally... A Safe, Reliable, No-Fuss Warming System

The Olympic Advanced Dental Table is now available with our exclusive Thermo-Safe™ Warming System, a fear-free warming system. Unlike other warmers that rely on a single thermostat, the Olympic warming system continuously monitors 6 thermostats on the patient surface to help assure a patient's safety and comfort at all times, typically eliminating the need for under-patient warming.

Achieve a higher level of sterility in less time.

The Advanced Dental Table leaves your floor clean, accessible and caster-free. And with Olympic's new Sterile-Max™ Cleaning System, all fluids are collecting in a high-visibility channel that can be wiped down and disinfected in seconds, eliminating the need for a removable trough that requires an awkward trip to the sink.

Reduce Overall Construction Costs

The Olympic Advanced Dental Table can pay for itself on day one by reducing your square footage requirements. By integrating everything you need on the table's floating swing arms, you eliminate up to 7 wheeled stands from your operator, typically reducing your square footage requirement by 20-25 square feet. This can make the difference between fitting a second dental table in a room built for one, or repurposing a small room as a new dental suite. Another way this table reduces construction costs is by eliminating the need for expensive overhead lighting. Olympic's integrated LED procedure lights provide all the light required with no installation costs.

All your dental equipment at your fingertips

STANDING
Extra tall 44"

SEATED
Comfortable 32"

Better Patient Presentation

Patient presentation can be adjusted instantly during procedures for better visualization. Electric lift adjusts from seated 32" to extra tall 44". Tilt adjustment up to 10°, V-positioner adjusts to 45°.

Move for Easy Cleaning

Mounted on heavy duty 3" locking casters, so it can be moved for area cleaning. Just unplug one power cord and you can roll the entire operator.

Sterile-Max™ Cleaning System
All fluids are collected in a high-visibility channel that can be wiped down and disinfected in seconds.

Thermo-Safe™ Warming System
Continuously monitors 6 thermostats on the patient surface to help assure a patient's comfort and safety.

Pre-Installed Sockets for Customization
Add Olympic accessories or your preferred anesthesia, dental unit, patient monitor, or other ancillary equipment.

Eliminate Need for Ceiling-Mounted Light
Choice of 3 LED procedure lights. Brightness up to 60K Lux, dimming and color selectivity.

Reduce Clutter
Integrated Power Strip centralizes all electrical connections in one place so there are no cords on the floor.

A Dental "Cockpit" – All your instruments and equipment are mounted on Swing Arms for perfect positioning. You save time and work in ergonomic comfort.

Dental Head Rest – An efficient work platform. Supports patient's head on reinforced stainless steel surface. Rapid drainage. Rounded arm rests.

Compressor Storage – Compressor stores on table base behind post. Compressor Cart available to dampen vibration.

Rock-Solid Operatory Surface – The heavy-duty construction eliminates all bounce and wobble, even when someone leans on table.

Large Table Top Surface – Full 62" length x 21" width for patients of all sizes.

Tie Down Cleats – 3 on each side of table, for securing patients safely.
