

Start Saving Today With The Pureline[®] M6000 Anesthesia Machine With Oxygen Concentrator

M6000

Stop paying for tanks, refills, and deliveries.
Stop wasting time on tank billing, scheduling and management.
Instead, get your oxygen for free, the natural way ... from the air!

Savings for you, safety for your patients.

The **Pureline M6000** anesthesia machine with our integrated oxygen concentrator is one of a kind!

Supera has perfected the technology, added safety features like the built-in E-tank manifold that allows mobile use of the machine without power. It also protects your patient in case of a power failure.

The Pureline oxygen concentrator is FDA approved (USP 93%), UL tested and backed by the industry's best warranty.

Key Features

- Extracts medical-grade O₂ from room air
- Energy efficient
- Built specifically for anesthesia machine use
- Oxygen flow & purity safety alarms
- Safety backup O₂ supply
- Accepts industry standard vaporizers
- Virtually maintenance free
- Proudly made in Oregon

P/N M6000 Includes safety pop-off valve

P/N M6000NS Includes regular pop-off valve

(not shown)

**Note: Vaporizer not included.
Sold Separately**

The Pureline[®] M6000 Pays For Itself!

By eliminating the cost of oxygen tank rental, purchase, refills, delivery charges and tank management time, the Pureline M6000 will pay for itself very quickly.

Heavy-duty shelf holds all monitor types safely and securely.

Return On Investment

can be in as little as 12 months!

The Benefits of the Pureline M6000

- No tanks, hoses, regulators to buy, store or replace...ever!
- Oxygen is “on demand”—never run out!
- Accepts industry standard vaporizers
- 0-4 lpm precision flow meter
- Easy on/off; controls are large and easily accessible
- Stable “A” frame chassis with a low center of gravity
- Small 18” square footprint saves valuable space
- Includes anesthesia accessories: adult and pediatric unilimb rebreathing circuits, non-rebreathing circuit and heavy-duty rebreathing bags
- Quiet 40 dBA operation (best in the industry)
- Includes one high pressure “E” tank for backup and oxygen flush (the back up e-tank is not filled by machine)

Stability by design weight is centered within the “A” frame.

Shown with optional vaporizer
