

ANTIMICROBIAL OTIC SOLUTION

Vetericyn Plus[®] VF Antimicrobial Otic Solution for Veterinarians is specially formulated for flushing and cleaning wounds and removing foreign debris and irritants from the outer ear and ear canal. It contains synthesized hypochlorous, a known antimicrobial also produced by the animal during phagocytosis that can be used on all otic tissue without harming fibroblast cells.

Item #2024

Uses

- + Chronic ear infections

Vetericyn Plus[®] VF contains Hypochlorous Acid, a known antimicrobial, which serves as a preservative to inhibit the growth of microorganisms in the solution.

MORE POWERFUL. BETTER APPLICATOR.

Otic solution is now formulated with 60% more active hypochlorous technology while remaining non-cytotoxic and features a new bendable spout applicator for ease of use and to prevent cross-contamination.

Features

- Vetericyn Plus[®] VF has been shown to have anti-pruritic activity along with antimicrobial action
- Flexible tip is more comfortable for the animal and allows for better application of product
- Spout application helps prevent cross-contamination
- Safe if licked or ingested
- Can be used with damaged ear drums
- Continued use of Vetericyn helps promote healing of tissue, especially after an infection has cleared

Benefits

- Formula is pH balanced and does not irritate inflamed ears so animals do not resist treatment
- Contains no steroids, antibiotics, or alcohol
- Using Vetericyn prior to other medications helps prep otic tissues, thus allowing medications and other treatments to work more effectively
