VetriSCIENCE[®]
Laboratories **PRO LINE**

EXCLUSIVE CARE

For Your Business and Patients

When you have a close bond with your patients and clients, you can provide exclusive, tailored care. The Pro Line features advanced supplement formulas your clients will find only in your clinic—not online or in stores—to help you provide that care to every patient, every time.

SETTING THE STANDARD

Since our company was founded, VetriScience® Laboratories, a division of FoodScience® Corporation, has led the way in the animal health industry with the formulation of nutritional supplements for companion animals. For over 40 years, VetriScience® has been setting new standards of quality and safety in the animal health industry.

ADVANCED FORMULAS FOR EXCLUSIVE BUSINESS

In 2014, VetriScience® launched the Pro Line, complete with a unique combination of ingredients to reflect products developed exclusively for veterinary use. Our mission is to provide you with powerful products backed by science to complement your patients' traditional therapies.

SUPERIOR INGREDIENTS

The raw materials we use in our products are of the highest level of quality and purity. Our ingredients are strictly evaluated prior to approval for use to ensure our products are safe and effective. Pro Line products feature patented, extensively researched ingredients for your clinical use.

VetriFLEX®

Vetri FLEX® is recommended for the structural support of joints and soft tissues, as well as a healthy inflammatory response in all organs. Using low molecular weight and Phytosome® technology, Vetri FLEX®'s ingredients promote absorption.

HOW PHYTOSOME® TECHNOLOGY WORKS

Phytosomes are created by a patented process that binds an herbal extract to a phospholipid. The patented Phytosome® ingredients in Vetri FLEX® are bound to the phospholipid called phosphatidylcholine, a principal element of cell membranes. The complex easily crosses the gut barrier, resulting in significantly higher blood levels.

THE INGREDIENT DIFFERENCE

Numerous studies in dogs, horses, sheep, rodents, and humans demonstrate CurcuVET®'s potential for helping to maintain normal inflammatory processes.

The bioavailability of Boswellic acids from Casperome® is greatly optimized both at the plasma and at the tissue level.

Research has demonstrated LeucoSelect®'s ability to reduce oxidative stress and support plasma antioxidant defenses, both in physiological and clinical conditions.

The presence of chondroitin sulfates 4 and 6, hyaluronic acid, dermatan sulfate and other key GAGs in Perna provides improved viscosity, flexibility and tensile strength of the articular cartilage.

DMG is referred to as a "metabolic enhancer" because of the many ways it can improve cellular metabolism, especially under conditions of stress in the body.

Order Vetri FLEX® today to see the difference—in our technology and in your business.

GlycOmega™ is a Trademark of Aroma New Zealand LTD.
Casperome®, CurcuVET® and LeucoSelect® are registered trademarks of Indena S.p.A.
HyaMax® Brand Sodium Hyaluronate is a Trademark of Fenchem Enterprises, LTD.

60 Chewable Tablets

Active Ingredients per Chew or Tablet:

	ALL WEIGHT RANGES	61+ POUNDS	TABLETS
Glucosamine HCl (Shrimp & Crab)	500 mg	1,000 mg	1,000 mg
Methylsulfonylmethane (MSM)	500 mg	1,000 mg	1,000 mg
Perna Canaliculus (GlycOmega™ brand Green-Lipped Mussel)	300 mg	600 mg	600 mg
CurcuVET® (Curcumin Phytosome®)	150 mg	300 mg	300 mg
N,N-Dimethylglycine HCl (DMG)	100 mg	200 mg	200 mg
Casperome® (Boswellia Phytosome®)	75 mg	150 mg	150 mg
d-alpha Tocopheryl Acetate (Vitamin E)	25 IU	50 IU	50 IU
Ascorbic Acid (Vitamin C)	25 mg	50 mg	
LeucoSelect® (Grape Seed Phytosome®)	5 mg	10 mg	10 mg
Manganese (Mn Protein)	5 mg	10 mg	10 mg
Hyaluronic Acid (HyaMax® Low Molecular Weight Sodium Hyaluronate)	5 mg	10 mg	10 mg
Selenium (Sodium Selenite)	0.005 mg	0.01 mg	0.01 mg

Inactive Ingredients (chews): arabic gum, brewers yeast, calcium sulfate, canola oil, caramel color, chicken liver flavor, citric acid, citrus pectin, glycerin, maltodextrin, microcrystalline cellulose, mixed tocopherols, oat flour, propionic acid, rosemary extract, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

Inactive Ingredients (tablets): cellulose, duck flavor, microcrystalline cellulose, safflower oil, stearic acid, silicon dioxide, water.

DIRECTIONS FOR USE:

Vetri FLEX® for All Weight Ranges:

- 0-30 lbs: ½ chew daily.
- 31-60 lbs: 1 chew daily.
- 61+ lbs: 2 chews daily.

Vetri FLEX® for 61+ lb Dogs:

- 61+ lbs: 1 chew daily.

Vetri FLEX® Tablets:

- 0-30 lbs: ½ tablet every other day.
- 31-60 lbs: ½ tablet daily.
- 61+ lbs: 1 tablet daily.

Resvera FLEX™

Resvera FLEX™ contains two key ingredients to support healthy aging.

Resversyn® is a proprietary, micronized, encapsulated resveratrol ingredient designed to maximize bioavailability and stability. N,N-Dimethylglycine (DMG) is referred to as a 'metabolic enhancer' because of the many ways it can improve cellular metabolism, especially under conditions of stress in the body.

Active Ingredients per Chew:

N,N-Dimethylglycine HCl (DMG)	250 mg
Resverasyn® (Micro-encapsulated trans-Resveratrol)	143 mg
Yielding trans-Resveratrol	100 mg

Inactive Ingredients: arabic gum, calcium sulfate, canola oil, caramel color, chicken liver flavor, citric acid, citrus pectin, flaxseed meal, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, silicon dioxide, sodium alginate, sorbic acid, vegetable oil, water.

DIRECTIONS FOR USE:

Resvera FLEX™ for All Weight Ranges:

0-30 lbs:	½ chew daily.
31-60 lbs:	1 chew daily.
61+ lbs:	2 chews daily.

Mobility FLEX

Mobility FLEX™ is a nutritional supplement that supports joint, immune system, and vascular health after surgery or trauma in both dogs and cats.

Mobility FLEX™ contains a range of patented, researched ingredients such as RST 247 (a blend of proprietary oils formulated from three specific oils containing unsaponifiable lipids), essential fatty acids and Ricinoleic Acid. Another notable ingredient, Corydalis, has been studied for its swift response in helping the body deal with both acute and chronic discomfort. Lastly, *Perna canaliculus* (GlycOmega™ brand Green-Lipped Mussel) is a natural source of chondroitin 4 and 6 sulfates, hyaluronic acid, essential and non-essential amino acids, fatty acids, and more.

Active Ingredients per Chew:

	ALL WEIGHT RANGES	61+ POUNDS
Proprietary Blend (Corydalis Yanhusuo Rhizome, Devil's Claw (Harpagophytum procumbens) Extract, Boswellia serrata Extract, Bromelain)	785 mg	1,570 mg
Methylsulfonylmethane (MSM)	250 mg	500 mg
Perna Canaliculus (GlycOmega™ brand Green-Lipped Mussel)	250 mg	500 mg
RST 247 (Proprietary Oil Blend, Soy Lecithin, Cranberry Powder)	150 mg	300 mg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, canola oil, caramel color, chicken liver flavor, citric acid, citrus pectin, glycerin, maltodextrin, mixed tocopherols, oat flour, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

DIRECTIONS FOR USE:

Mobility FLEX™ for All Weight Ranges:

- 0-30 lbs: 1 chew daily.
- 31-60 lbs: 2 chew daily.
- 61+ lbs: 4 chews daily.

Mobility FLEX™ for 61+ lb Dogs:

- 61+ lbs: 2 chews daily.

ENTERO HEALTH PRO

Entero Health Pro Entero Health Pro supports long-term intestinal health in dogs and cats, and may help manage recurring diarrhea.

ENTERO HEALTH PRO (60)

**CANINE
+FELINE
FORMULA**

**ALL
WEIGHT
RANGES**

7 DAYS A WEEK 

PRODUCT DETAILS:
Entero Health Pro is formulated to help maintain the mucosal lining of the intestinal tract. A strong GI tract may help to alleviate GI distress due to stress, illness, food sensitivity and environmental conditions. Our featured ingredient, Entero-Chronic®, supports a healthy gut with four unique ingredients, while zinc carnosine and slippery elm bark support and soothe the intestinal membrane.

60 CHEWS

DIRECTIONS FOR USE:

Adult Dogs:

0-30 lbs: 1 chew daily.
31-60 lbs: 2 chews daily.
61+ lbs: 3 chews daily.

Adult Cats:

All weight ranges: ½ chew daily.

For best results, cut chew to halve.

090026F.060

Active Ingredients per Chew:

Entero-Chronic® proprietary blend (α-Glucans, mannan oligosaccharides (MOS), β-Glucans, mucopolysaccharides)	1500 mg
L-Glutamine	200 mg
Slippery Elm (<i>Ulmus rubra</i>) Bark	100 mg
L-Arginine.	40 mg
PepZin GI® Zinc Carnosine (ZnC chelate complex)	40 mg

Inactive Ingredients: arabic gum, bentonite, calcium sulfate, cellulose, citric acid, citrus pectin, duck flavor, ferric oxide, glycerin, maltodextrin, mixed tocopherols, propionic acid, rosemary extract, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, sweet potato powder, vegetable oil, water.

INGREDIENTS OF INTEREST:

- » **Entero-Chronic®** Blend contains 4 ingredients to address the overall health of this delicate system. An unhealthy gut can lead to mal-absorption of nutrients, unhealthy inflammation, and immune challenges.
- » **PepZin GI®** is a unique, patented form of elemental Zinc bound to L-Carnosine. It has been shown to help stabilize small bowel integrity, support a healthy stomach lining and environment, as well as the health of gastric cells, maintain a healthy gastrointestinal environment, and manage occasional gastric discomfort. PepZinGI® is made via a proprietary chelation process and is supported by excellent scientific research.
- » **L-Glutamine** is a key component in the maintenance of healthy intestinal mucosa. A lack of glutamine may lead to a loss of enterocyte (cells in the small intestine) integrity in the lining of the intestines, which may affect digestion and absorption or allow the passage of pathogens into the body.
- » **Slippery Elm Bark** contains a substance called mucilage, which is a polysaccharide that becomes a gel when mixed with water. Slippery Elm Bark supports normal bowel transit time, may absorb toxins from the bowel, and supports the growth of beneficial bacteria in the gut.

ENTERO FLORA PRO

Entero Flora Pro is a non-dairy probiotic formulation containing 5 billion CFUs per gram and FOS to support digestive tract health and promote the body's innate resistance to pathogens.

COMPOSURE™ PRO

Composure™ Pro contains ingredients proven to support calm behavior during exposure to environmental stressors. It's ideal for times of high stress, such as when your patients are traveling, coming to you for a visit, kenneling, or playing host while your clients entertain guests.

COMPOSURE™ PRO (60)

CANINE + FELINE FORMULA

ALL WEIGHT RANGES

DAILY OR AS NEEDED

PRODUCT DETAILS:

Composure™ Pro contains ingredients proven to support calm behavior during exposure to environmental stressors, such as traveling, thunder, house guests, vet visits or unfamiliar surroundings.

60 SOFT CHEWS

Active Ingredients per Chew:

Thiamine (Vitamin B1)	100 mg
L-Tryptophan	75 mg
C3™ (Colostrum Calming Complex)	25 mg
L-Theanine (Suntheanine® Brand)	25 mg

Inactive Ingredients: arabic gum, barley flour, brewers yeast, calcium sulfate, canola oil, chicken liver flavor, citric acid, glycerin, maltodextrin, oat flour, pectin, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

ABOUT THE INGREDIENTS:

- » **C3™ (Colostrum Calming Complex)** is a mixture of active bioactive proteins produced from a special microfiltration process of certified bovine colostrum. It provides molecular precursors that support the calming response by normalizing cognitive and brain functions associated with excessive brain activity.
- » **L-Theanine (Suntheanine® Brand)** is a patented dietary supplement for stress reduction and relaxation. Studies have demonstrated that Suntheanine® is effective in helping dogs and cats deal with separation anxiety, fear behavior and environmental stressors.
- » **Tryptophan** is required for the production of serotonin, a chemical that acts as a calming agent in the brain and plays a key role in sleep efficiency.

DIRECTIONS FOR USE:

0-30 lbs: ½ chew daily.
 31-60 lbs: 1 chew daily.
 61+ lbs: 2 chews daily.

Product can be given up to two times daily or on an as needed basis. It is safe to double in times of increased stress.

Suntheanine®

C3™ is a Trademark of VetriScience® Laboratories, a Division of FoodScience® Corporation. Copyright © FoodScience Corporation 2009, Essex Jct., Vermont, 05452. Suntheanine® L-Theanine is patented and licensed by Taiyo International, Inc.

GI BALANCE PRO

GI Balance Pro provides a patented probiotic combined with prebiotics for advanced digestive health and immune system support.

Guaranteed Analysis per Chew (3 g):

Levels represent minimum values unless otherwise stated:

Moisture (max)	10.44 %
*FOS (Fructooligosaccharides)	100 mg
**Bacillus coagulans	333,500,000 CFU/gram

*Not recognized as an essential nutrient by the AAFCO Dog and Cat Food Nutrient Profiles

**GanedenBC³⁰™ (*Bacillus coagulans* GBI-30, 6086)

Ingredients: oat flour, rye flour, brewers dried yeast, glycerin, natural duck flavor, arabic gum, canola oil, soy lecithin, fructooligosaccharides, yeast extract, dried skim milk, dried Bacillus coagulans fermentation product, water, citrus pectin, maltodextrin, sodium alginate, calcium sulfate, sorbic acid (a preservative), propionic acid (a preservative), natural mixed tocopherols (a preservative).

ABOUT THE INGREDIENTS:

- » **Probiotics** are beneficial microorganisms that help control the critical balance in the digestive system. They prevent the growth of undesirable microorganisms. Balance within the digestive system is essential to maintain a healthy GI tract, protect against disease, improve digestion and enhance overall health. Microflora also reside in other areas where mucous membranes are exposed to the environment, such as the skin, respiratory tract and genital-urinary tract.
- » **FOS** are prebiotic fibers that support the growth of beneficial bacteria in the intestinal tract. Prebiotics have been shown to inhibit the growth of harmful bacterial species. Because FOS is not digested by the body, it will increase the amount of material in the intestinal tract and stimulate the elimination process to support regularity.

L-LYSINE PRO

L-Lysine Pro supports immune system function, eye and respiratory health. With twice the lysine of Vetri Lysine Plus, and the addition of DMG, L-Lysine Pro offers advanced immune support for cats.

L-LYSINE PRO (120)

FELINE

FORMULA

ALL
AGES

7 DAYS A WEEK

⌚

PRODUCT DETAILS:

L-Lysine Pro is designed to support immune system function, eye health and respiratory health in cats. Added DMG provides useful methyl groups for the production of various metabolically active molecules essential to key bodily functions.

⏪

120 CHEWS

Active Ingredients per 2 Chews (4 g):

L-Lysine.....	500 mg
N,N-Dimethylglycine HCl (DMG).....	50 mg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, fish meal, glycerin, maltodextrin, mixed tocopherols, oat flour, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

ABOUT THE INGREDIENTS:

- » **L-Lysine** is an essential amino acid required by cats. As an important component of many proteins, L-lysine supports antibody, hormone and enzyme production. It also promotes healthy growth and development by supporting the production of collagen. L-Lysine and the amino acid L-arginine compete for the same receptors in the body. L-arginine is required for the replication of the herpes virus.
- » **DMG** is an intermediary metabolite, which is a substance that is rapidly broken down into other vital substances in the body.
- » **DMG** provides useful building blocks, including methyl groups that support the production of vitamins, hormones, neurotransmitters, antibodies, nucleic acids, and other metabolically active molecules. Animals produce DMG in small amounts, and research indicates that supplementing with DMG enhances oxygen utilization at the cellular level, as well as supports the immune response with antibody and lymphocyte production.

DIRECTIONS FOR USE:

- Adult Cat: Give 1 to 2 chews, twice daily.
- Kittens: Give 1 chew, twice daily.

HEPATICLEAR™ PRO

HepatiClear™ Pro is recommended for dogs needing everyday support to normalize liver enzyme levels. This formula does not require fasting, and features phytosome technology for improved bioavailability. HepatiClear™ Pro contains hepatoprotective ingredients designed to support liver health, methylation and normal detoxification functions.

Active Ingredients per Chew (4.5 g):

Betaine	500 mg
dl-alpha Tocopheryl Acetate (Vitamin E)	175 IU
CurcuVET® Curcumin Phytosome® (Turmeric Curcuma longa root extract / phosphatidylcholine complex)	100 mg
Siliphos® Silybin Phytosome® (Milk thistle Silybum marianum seed extract/phosphatidylcholine complex)	100 mg
Bilear™ (Artichoke Cynara cardunculus leaf extract)	100 mg
N,N-Dimethylglycine HCl (DMG)	100 mg
Zinc (Zn Proteinate)	10 mg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, imitation chicken flavor, maltodextrin, mixed tocopherols, oat flour, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

ABOUT THE INGREDIENTS:

- » **SILIPHOS®**, a branded Phytosome® ingredient in which silybin, (the active principle in milk thistle), is combined with phospholipids to significantly improve bioavailability
- » **CurcuVET®**, a Curcumin Phytosome®
 - › Numerous studies in dogs, horses, sheep, rodents, and humans demonstrate CurcuVET®'s potential for helping to maintain normal inflammatory processes.
 - › Pharmacokinetic studies demonstrate a nearly 30 fold increase in bioavailability when compared to standard curcumin extracts.
- » **Bilear™** brand Artichoke Leaf Extract to help normalize liver metabolism and promote bile flow
- » **Betaine (TMG)** to support the production of DMG, glutathione and methylation of homocysteine to methionine
- » **Dimethylglycine** to support the production of glutathione, SAME, sulfur based amino acids, and to support the immune system
- » **Vitamin E** is an important antioxidant that helps protect the liver from copper accumulation
- » **Zinc** acts as an antioxidant by inhibiting lipid peroxidation and helps protect against fibrosis

HEPATICLEAR™ PRO (60)

Vitamin A	75 IU		

*Not recognized as an essential nutrient by the AAFCO Dog and Cat Food Nutrient Profiles.

**Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

Inactive Ingredients: brewers dried yeast, water, oat flour, barley flour, rye flour, rice flour, arabic gum, natural duck flavor, citrus pectin, glycerin, soy lecithin, fish oil concentrate, ascorbic acid, l-cysteine, maltodextrin, sodium alginate, calcium sulfate, dl-methionine, oat meal, olive oil, safflower oil, vitamin E supplement, zinc citrate, sorbic acid (a preservative), propionic acid (a preservative), mixed tocopherols (a preservative), pyridoxine hydrochloride, biotin, vitamin A supplement.

ABOUT THE INGREDIENTS:

- » **Biotin** is a sulfur-bearing vitamin and a vital ingredient for skin health. It is necessary for cell growth, the production of fatty acids, and the metabolism of fats and amino acids.
- » **Ascorbic acid (vitamin C)** supports collagen production, contributes to skin texture and resiliency, and provides a defense against oxidative stress that can damage your patients' skin tissues.
- » **Methionine and L-cysteine** are amino acids, essential building blocks for proteins. Both ingredients support skin tone and elasticity and act as antioxidants to protect against skin-damaging free radicals.

IMMUNO DMG™ PRO

Immuno DMG™ Pro is an advanced immune support formula that combines unique nutrients used to complement traditional therapies. Recommended for animals in need of serious immune support, Immuno DMG™ Pro is a must-have option for your clients.

Active Ingredients per Chew:

Transfer Factor ap™ Blend
(A proprietary blend of bioactive peptides from colostrum) **400 mg**
N,N-Dimethylglycine HCl (DMG) **250 mg**
Ascorbic Acid (Vitamin C) **200 mg**

(Cordyceps sinensis mycelia extract, Agaricus blazei fruiting body extract, Trametes versicolor fruiting body extract, Wolfiporia extensa fruiting body extract, Inonotus obliquus fruiting body extract, Maitake (Grifola frondosa) fruiting body extract, Shiitake (Lentinus edodes) fruiting body extract)

d-alpha Tocopheryl Acetate (Vitamin E) **70 IU**
Grape Seed (Vitis vinifera) Extract **30 mg**
Maitake PD-Fraction®
(Grifola frondosa) Extract **30 mg**
Yielding D-Fraction® **9 mg**

Inactive Ingredients: arabic gum, barley flour, brewers yeast, calcium sulfate, canola oil, chicken liver flavor, citric acid, citrus pectin, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

ABOUT THE PATENTED INGREDIENTS:

- » **Glucans MY™** is a combination of seven extensively researched medicinal mushrooms that provide a special blend of beta glucans.
- » **Maitake PD-Fraction®** is highly purified and standardized to contain 30% pure D-Fraction. It stimulates the release of interleukins and cytokines that activate immune cells and enhance the immune response.
- » **Transfer Factor ap™ Blend** is a blend of immunoglobulins, interferons, interleukins, lymphokines, growth factors, transfer factors and proline rich peptides that serve as communication, memory and educational molecules of the immune system.

Transfer Factor ap™ and GlucansMY™ are trademarks of Ramaekers Nutrition.

Maitake PD-Fraction® and D-Fraction® are registered trademarks of Mushroom Wisdom, Inc.

DevCor™+Mobility Pro is a combination of Corydalis, Devil's Claw, Boswellia and Bromelain recommended to support mobility and flexibility in animals experiencing discomfort due to everyday activity.

CAPSULES

DIRECTIONS FOR USE:

Under 10 lbs: ¼ capsule twice daily.
 10-20 lbs: ½ capsule twice daily.
 21-50 lbs: 1 capsule twice daily.
 51-100 lbs: 2 capsules twice daily.
 Over 100 lbs: 3 capsules twice daily.

Use as needed for maximum comfort for dogs with limited mobility and flexibility.

Active Ingredients per 2 Capsules:

Proprietary Blend **1400 mg**
 (Corydalis Yanhusuox Rhizome, Devil's Claw (Harpagophytum procumbens) Extract, Boswellia serrata Extract, Bromelain)

Inactive Ingredients: gelatin, magnesium stearate, rice flour.

ABOUT THE INGREDIENTS:

- » **Corydalis** has been studied for its swift response in helping the body deal with both acute and chronic joint discomfort. In laboratory research, it has been shown to exhibit a wide number of actions on the central nervous system, including alleviating joint discomfort. Tetrahydropalmatine (THD) is the alkaloid responsible for the pharmacological action of corydalis.
- » **Devil's Claw** supports joint flexibility and comfort because of its ability to promote the production of favorable prostaglandins and leukotrienes.
- » **Boswellia serrata** maintains proper prostaglandin levels and helps the body manage 5-lipoxygenase chemicals and leukotriene synthesis. It also provides antioxidant protection and supports the immune system.
- » **Bromelain** is a proteolytic enzyme that breaks down fibrin, which promotes healthy blood flow, helping to alleviate discomfort.

0900268.030 | 0900268.180

UT STRENGTH PRO

UT Strength Pro is formulated to support urinary tract health and can be used long term with those animals who are predisposed to UT issues and crystals.

Active Ingredients per Chew:

D-Mannose	400 mg
N-Acetyl-Glucosamine (Shrimp and Crab)	400 mg
Cranberry Powder	200 mg
Bromelain	200 mg
Corn Silk	120 mg
GanedenBC ^{30™} (<i>Bacillus coagulans</i> GBI-30, 6086)	200 million CFU

Inactive Ingredients: barley flour, brewers yeast, calcium sulfate, chicken liver flavor, dried skim milk, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rice flour, rosemary extract, rye flour, safflower oil, silicon dioxide, sodium alginate, soy lecithin.

INGREDIENTS OF INTEREST:

- » **D-Mannose** is a naturally occurring simple sugar that attaches to and eliminates harmful bacteria. D-Mannose is absorbed eight times slower than glucose and when ingested, is not converted to glycogen or stored in the liver but, rather, goes directly into the blood stream from the kidneys to the bladder.
- » **N-Acetyl Glucosamine (NAG)** is an important form of glucosamine that is used for the production of glycoproteins. The glycoprotein layer in the mucosal lining of the urinary tract is the protective barrier against acids and bacteria, and is replaced every 3-4 days. Due to this high cell turnover rate, the GI tract requires increased amounts of NAG to support structural integrity and functionality.
- » **Cranberry Extract** helps acidify urine. Proanthocyanidins (PCOs) naturally contained in Cranberry Extract help neutralize free radicals and prevent the adherence of pathogenic bacteria to the cells that line the bladder and urinary tract. Cranberry has also been used as a urine deodorizer as it decreases the strong smell of ammonia.

60 CHEWS

DIRECTIONS FOR USE:

0-30 lbs: 1 chew daily.
31-60 lbs: 2 chews daily.
61+ lbs: 4 chews daily.

Active Ingredients per Chew:

Astragalus Root Powder	120 mg	Potassium (K Citrate)	16.5 mg
Rehmannia glutinosa (Root) Extract	100 mg	Inositol	16 mg
Nettle (<i>Urtica dioica</i>) Seed Extract	100 mg	Pyridoxine HCl (Vitamin B6)	16 mg
Cordyceps sinensis Extract	100 mg	Thiamine (Vitamin B1)	8 mg
Lecithin	100 mg	Riboflavin (Vitamin B2)	8 mg
L-Arginine	100 mg	Choline Chloride	8 mg
N,N-Dimethylglycine HCl (DMG)	50 mg	Folic Acid	0.30 mg
Eicosapentaenoic Acid (EPA)	45 mg	Methylcobalamin (Vitamin B12)	0.10 mg
Docosahexaenoic Acid (DHA)	30 mg		

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, chicken liver flavor, citric acid, citrus pectin, fish oil concentrate, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

INGREDIENTS OF INTEREST:

- » **Astragalus Root Powder** is an adaptogen that supports immune function and kidney circulation.
- » **Rehmannia** is a Chinese herb traditionally used as a blood tonic and to support urine flow. It is said to be the "kidney's own food." It is an adaptogen that supports kidney circulation, as well as kidney and liver function.
- » **Nettle (*Urtica dioica*) Seed Extract** supports the immune system, circulation, normal detoxification functions, and balanced fluid retention.
- » **Cordyceps sinensis Extract** is an adaptogen and antioxidant. It supports immune system function, energy production, removal of toxins, and kidney function.

PERIO SUPPORT PRO

Perio Support Pro is formulated specifically for use between routine veterinary dental cleanings to help maintain clean teeth, freshen breath, control plaque formation, and support gum health. The targeted and quick delivery system helps keep your pet's mouth healthy as part of a daily periodontal care program.

Active Ingredients Per 2.5 g (approx. 1 Teaspoon):

Natural Zeolites	500 mg
Proprietary Probiotic Blend (<i>L. acidophilus</i> , <i>E. faecium</i> , <i>B. subtilis</i> , <i>L. casei</i> , <i>L. fermentum</i> , <i>L. plantarum</i>)	355 mg
Cranberry Powder	25 mg
Yucca Schidigera Extract	7 mg
Taurine	1.25 mg
Zinc (Zn Ascorbate)	0.8 mg

Inactive Ingredients: anise oil, calcium carbonate, dried aspergillus niger fermentation extract, dried aspergillus oryzae fermentation extract, fenugreek seed extract, silicon dioxide, vegetable fat, whey solids, yeast fermentation solubles.

INGREDIENTS OF INTEREST:

- » **Natural Zeolites** are unique minerals that help prevent plaque from forming and sticking to teeth.
- » **Zinc** penetrates plaque on the teeth and oxidizes it, resulting in less plaque formation.
- » **Cranberry** is a source of antioxidants rich in bioflavonoids that support gum tissue health. They also help interfere with bacteria that can lead to plaque buildup and tissue destruction.
- » **Taurine** works with zinc to support gum tissue health and strength. Strong gum tissue is important since bacteria grows on dead tissue.
- » **Lactobacillus Acidophilus** help support a healthy bacterial balance in the mouth. They help the body displace unhealthy plaque-causing bacteria to support strong gums and fresh breath.

FAST BALANCE GI PRO

Fast Balance GI Pro is a fast acting, easy-to-administer paste that provides immediate GI support for dogs and cats. It contains a specialized yeast extract rich in mannan oligosaccharides derived from the cell wall of yeast, probiotics, fungal derived enzymes from *Aspergillus oryzae*, and B vitamins, all of which work together as a fast acting product to balance and normalize the GI tract.

FAST BALANCE GI PRO

**CANINE
+ FELINE
FORMULA**

**ALL
WEIGHT
RANGES**

DAILY OR AS NEEDED

PRODUCT DETAILS:

Recommended to help support proper GI tract structure and function during times of digestive upset and stress associated with garbage gut, food sensitivities, age and traveling.

PASTE

DIRECTIONS FOR USE:

Administer orally at recommended servings listed below until results occur.

Body Weight	Serving	Per Day
Up to 10 lbs	5 cc	2 times
11 to 20 lbs	5 cc	3 times
21 to 30 lbs	10 cc	3 times
31 to 50 lbs	15 cc	3 times
51+ lbs	20 cc	3 times

0900470.060

Active Ingredients Per 10 cc Serving:

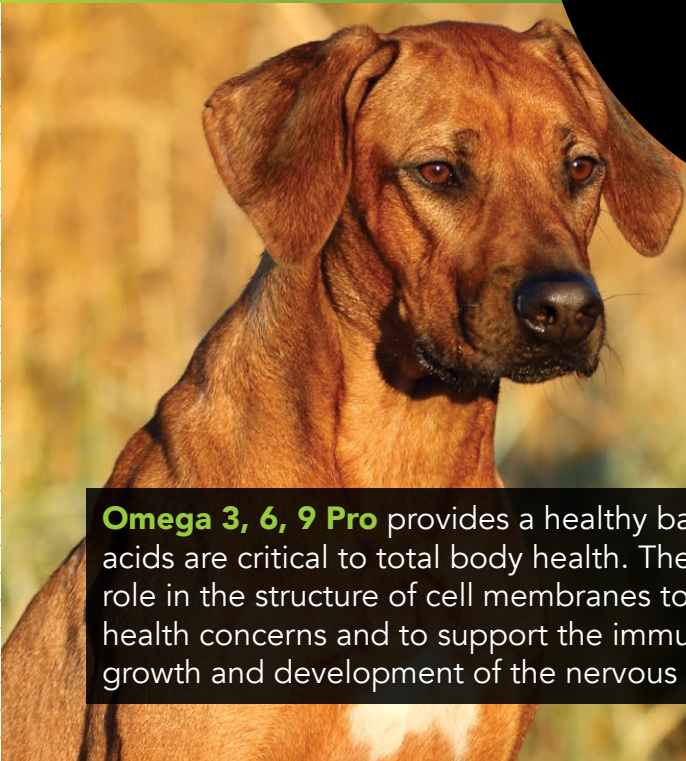

Pantothenic Acid	10.5 mg
Pyridoxine HCl (Vitamin B6)	2.5 mg
Riboflavin (Vitamin B2)	1.0 mg
Mixed Lactic Acid Bacteria	1.3 x 10 ⁷ CFU
Saccharomyces cerevisiae	3.4 x 10 ⁶ CFU
Bacillus subtilus	3.8 x 10 ⁵ CFU
Aspergillus oryzae fermentation extract	1.89 mg

Inactive Ingredients: vegetable oil, sucrose, glucose, dried lactobacillus acidophilus fermentation product, dried enterococcus faecium fermentation product, dried lactobacillus casei fermentation product, dried lactobacillus plantarum fermentation product, dried aspergillus niger fermentation extract, dried aspergillus oryzae fermentation extract, dried bacillus subtilus fermentation extract, d-calcium pantothenate, pyridoxine hydrochloride, riboflavin, natural flavors.

INGREDIENTS OF INTEREST:

- » **Mannan oligosaccharides (MOS)** also support immune system functions for optimal gut health. MOS provide more binding sites than FOS (Fructo Oligosaccharides).
- » **Bacillus subtilis, mixed lactic acid bacteria** and **Enterococcus faecium** that helps maintain balanced microflora levels in the gut. They also encourage the growth of helpful bacteria and help maintain proper water level in the gut.
- » **Vitamins** work synergistically with the probiotics to support the growth of the naturally occurring beneficial microbial population in the animal's gut. This causes a quicker response and helps to reduce stress on the GI mucosa. Riboflavin (vitamin B2) supports normal gut health, and pyridoxine hydrochloride (vitamin B6) supports proper immune function.

OMEGA 3, 6, 9 PRO

Omega 3, 6, 9 Pro provides a healthy balance of fatty acids. Fatty acids are critical to total body health. These fatty acids play a vital role in the structure of cell membranes to support animals with skin health concerns and to support the immune system and proper growth and development of the nervous system.

Active Ingredients Per Gel Cap:

Alpha Linolenic Acid (ALA)	178 mg
Linoleic Acid (LA)	171.6 mg
Oleic Acid (OA)	145 mg
Eicosapentaenoic Acid (EPA)	120 mg
Docosahexaenoic Acid (DHA)	80 mg
Gamma Linolenic Acid (GLA)	72.8 mg
d-alpha Tocopherol (Vitamin E)	10 IU

Inactive Ingredients: borage seed oil, fish oil, flaxseed oil, gelatin, glycerin, purified water.

INGREDIENTS OF INTEREST:

- » **Natural oils** from borage seed, flaxseed, and fish, combine the health benefits of omega 3, 6 and 9 fatty acids.
- » **ALA, GLA, EPA, and DHA** support heart and skin health.
- » **Omega 3, 6, 9 Pro** provides the desirable ratio of omega 3 to omega 6 fatty acids for more efficient and beneficial prostaglandin production.
