

Optixcare[®]

BRINGING YOU

THE SCIENCE

OF SIGHT

EYE LUBE PLUS

- > Contains carbomer gel plus Hyaluron. Dual cross-linked, hydrophilic polymers for potentiated corneal hydration, and longer effect.
- > Gelled corneal hydration for moderate to severe KCS.

EYE CLEANER & WIPES

- > Gentle and effective solutions for the safe removal of ocular secretions and staining around the eye.
- > No harsh chemicals or antibiotics added.

L-LYSINE CHEWS

- > Each chew contains 500mg L-Lysine.
- > Highly palatable soft chew.

EYE HEALTH

- > Topical nutritional antioxidant.
- > Helps protect against ocular degenerative diseases associated with oxidative stress.¹

EYE LUBE

- > Contains carbomer a cross-linked, hydrophilic polymer.
- > Gelled corneal hydration for mild to moderate KCS & during anesthesia.

Optixcare®

BRINGING YOU
THE SCIENCE
OF SIGHT

OCULAR DEGENERATIVE DISEASES

Associated with
oxidative stress

OPTIXCARE® EYE HEALTH

- › Contains 4 unique antioxidants suspended in a proprietary carbomer vehicle
- › Helps protect against the degenerating effects of ocular oxidative stress¹
- › Aids in the maintenance of tear flow¹

DRY EYE

OPTIXCARE® EYE LUBE & OPTIXCARE® EYE LUBE PLUS

Improve owner compliance:

- › one drop per eye as needed
- › gel consistency allows for easy application
- › non greasy, water base gel

Available in 15g and 25g polyvinyl,
stand up tubes

FELINE HERPES

OPTIXCARE® L-LYSINE CHEWS

- › 500mg L-Lysine HCl per chew
- › Improved owner & pet compliance
- › Bite sized, easy to give soft chews
- › Approximately 60 chews per bag

EXCESS TEARING

OPTIXCARE® EYE CLEANER & OPTIXCARE® EYE CLEANING WIPES

- › 100ml cleaning solution for more chronic staining problems
- › A resealable soft packet of 50 moist wipes for mild staining or secretions

OPTIXCARE® EYE HEALTH

- › 4 key antioxidants may help delay the onset and progression of ocular degenerative diseases associated with oxidative stress [cataract, retinal degeneration]¹
- › Anti-inflammatory property aids in the maintenance of natural tear flow¹, and helps alleviate the symptoms of dry eye
- › Cetrimide as both a preservative and corneal permeation enhancer² – augments the ocular uptake of antioxidants¹

OPTIXCARE® EYE LUBE

Sustained release hydrophilic carbomer gel

- › provides long lasting corneal protection for mild KCS and during anesthesia
- › helps maintain moisture to the eye

OPTIXCARE® EYE LUBE PLUS

Sustained release hydrophilic carbomer gel infused with nourishing and hydrating hyaluron

- › provides long lasting corneal protection for moderate to severe KCS
- › provides additional protective and regenerative properties
- › improved comfort to the dry eye

OPTIXCARE® L-LYSINE CHEWS

- › daily recommendations for herpes management include 1,000mg for active viral disease and 500mg prior to stress or reoccurrence of symptoms^{3,4}
- › 83% cat acceptance as shown by independent palatability testing
- › only 5 kcal per chew

OPTIXCARE® EYE CLEANER & WIPES

Effective removal of:

- › unpleasant tear staining around eye
- › ocular secretions, sticky mucus and crusty debris
- › facial fold odors

Safe & gentle formulation:

- › chamomile & hyaluron to soothe and hydrate the eye and eye surroundings
- › no peroxide, bleaches, borate/boric acid or other toxic chemicals
- › no low dose antibiotics
