

SOL-M™ Oral Syringes

For safe oral application of medicine:

- 3 piece syringe with O ring for consistent, smooth drug delivery. This design reduces the possibility of interaction between the device and the oral medication.
- Available capacity: from 1ml to 20ml with protective tip cap.
- Clear scale markings for maximum accuracy.
- Not made with natural rubber latex.
- Special tip design - will not accept Luer connector, preventing medication errors and accidental intravenous injections of oral liquids.
- Amber barrel - designed for light-sensitive drugs, in compliance with United States Pharmacopeia (USP) requirements.
- Press-in bottle adapters and tip caps available separately.

SOL-M™ Oral Syringes

User-friendly graduation with millimeters, teaspoons and drops as units of measurement.

Protective tip cap - allows for safe transportation with no medication spillage.
