SHIELDTEC™ Flea & Tick Pet Spray

SHIELDTEC™ FLEA & TICK PET SPRAY: EASY-TO-USE FLEA & TICK CONTROL

ShieldTec™ Flea & Tick Pet Spray comes in a convenient spray bottle to kill fleas and ticks on your dog or cat in as little as FIVE minutes. ShieldTec Flea & Tick Pet Spray contains two active ingredients that together quickly kill adult fleas, flea eggs, flea larvae and prevent the development of flea pupae. Plus, ShieldTec Flea & Tick Pet Spray controls ticks, which feed off your pet's blood and may carry Lyme disease. It remains effective for up to a month to continue to protect your pet. The convenient spray can be used on dogs and cats, and puppies and kittens older than 8 weeks.

Active Ingredients:

Fipronil.....0.29%
S-Methoprene.....0.27%

How To Apply Wear protective rubber gloves. Holding the bottle upright, ruffle the pet's hair with one gloved hand while applying spray to the pet's back, sides, abdomen, legs, shoulders and neck. For the head and eye area, spray ShieldTec Flea & Tick Pet Spray on a gloved hand and gently rub into pet's hair. Spray approximately 1 to 2 sprays (approximately 0.06 to 0.12 fl oz) per pound of the pet's body weight. Do not get this product in your pet's eyes or mouth. Apply the spray until pet's hair is damp to thoroughly wet. Pets with long or dense hair will require the higher rate. As with any flea control product, wash hands and exposed skin thoroughly with soap and water after use. Dispose of gloves after use. Apply ShieldTec Flea & Tick Pet Spray monthly, for year-round protection. Application directly onto ticks is not required for control. Do not reapply spray for 30 days. ShieldTec Flea & Tick Pet Spray remains effective after bathing and exposure to water and sunlight.

Available in 2 convenient sizes:
8 fl oz and 16 fl oz

- Starts working in just five minutes**
- Kills fleas and ticks for up to 30 days**
- Helps break the flea life cycle**
- Multiple applications in each bottle for convenient storage**
