This product is a one-step disinfectant cleaner and deodorant designed for general cleaning and disinfecting of hard, non-porous environmental surfaces.

It cleans quickly by removing dirt, grime, blood, urine, mold stains, laboratory stains, and other common soils found in animal housing facilities, grooming facilities, kennels, pet stores, veterinary clinics, or other small animal facilities.

This product is designed for use on hard, non-porous environmental surfaces: chrome, glazed ceramic, glazed porcelain, glazed tile and stainless steel associated with high touch environmental surfaces, animal equipment, animal crates, cages, carts, examination tables, grooming equipment, reception areas, veterinary care surfaces or any hard non-porous washable (non-food contact) surfaces where disinfection is required. It also reduces odor-causing bacteria leaving surfaces smelling clean and fresh.
