

CLENZ-A-DENT RAWHIDE CHEWS

Palatable Poultry Flavored Enzymatic Rawhide Chews for Dogs

TECHNICAL SPECIFICATIONS:

Poultry flavoured and enzyme coated beef rawhide chews.

PROPERTIES:

CLENZA-DENT® Rawhide Chews are made from carefully selected beef hide that is cut and cooked before being coated with a palatable enzymatic blend. The enzymatic blend contains Glucose oxidase and Lactoperoxidase that help maintain the natural antibacterial salivary system.

The abrasive texture of the rawhide chews also have a mechanical cleaning effect on teeth.

The regular use of the CLENZ-A-DENT Rawhide Chews helps prevent plaque and tartar build up, keep the mouth healthy and the teeth clean. The palatable poultry flavour makes them a real treat.

USES:

For Dogs Only. Recommended to help keep teeth clean and freshen breath.

FEEDING DIRECTIONS:

Give one chew daily based on the animal's weight:

Dogs under 11lbs: Clenz-a-dent Rawhide Chew Small

Dogs between 11lbs and 25 lbs: Clenz-a-dent Rawhide Chews Medium

Dogs between 26lbs and 50 lbs: Clenz-a-dent Rawhide Chews Large

Dogs over 50 lbs: Clenz-a-dent Rawhide Chews Extra-Large

It is recommended to monitor your dog while this product is being chewed. Gulping whole chews can be harmful to a dog.

PRECAUTIONS FOR USE:

This product is intended for intermittent or supplemental feeding only.

Keep out of reach of children.

Not intended for human use. Do not feed to cattle or ruminants.

STORAGE:

Store in a cool and dry place. Carefully reseal pouch after use.
