Lysine Can Help!

In published studies, Lysine supplementation has been shown to help support normal respiratory health and help maintain normal eye function and health.^{1,2}

Professor David J. Maggs, DVM
Veterinary Ophthalmologist and FHV Researcher

Contrary to a published review article questioning the effectiveness of Lysine, Dr. Maggs has found that -

“Lysine plays an important role in reducing the duration, frequency, and severity of herpetic disease episodes in cats.”

Family-owned and dedicated exclusively
to animal health since 1933

vetoquinolusa.com

98% of cat owners, that use Lysine, say that it helps at least 1 FHV symptom in their cat³

New Recommendation

Are you recommending the right amount of Lysine to your patients?

For best results experts are now recommending **500mg** of Lysine twice a day.

Viralys® Palatable Gel & Powder

GEL (5oz Tube #410632) • Delivers 500mg of Lysine per ½ tsp. Administer twice per day. Great maple flavor.

POWDER • Delivers 500mg of Lysine per scoop. Cats love the fish flavor.

600g Jar #410634 - The economical solution: 600g = 960 scoops. Great for multi-cat households or shelters.

100g Jar #410633 - Convenient, portable size: 100g = 160 scoops.

Easy to
administer - 5
delivery options!

Enisyl-F® Palatable Chews, Bites & Paste

CHEWS (30ct Bag #429581) (60ct Bag #446153) • Delivers 500mg of Lysine per smoky fish-flavored chew. 1 chew twice daily for better pet parent compliance. The 15-30 day supply creates more return visits to the vet clinic.

BITES (180g Bag #415729) • Tasty poultry-flavored bite size kibbles. Cats love the taste and texture. Delivers 500mg of Lysine per 12 bites.

PASTE (100mL Pump #410240) • Great tuna flavor for extra finicky cats. Delivers 500mg of Lysine per 2 pumps.
