

THE ARMORHAND PROTECTOR

DETERMINE YOUR SIZE USING THE GUIDELINES BELOW:

SIZING	(INCHES)
A. SMALL	(7½ to 8)
B. MEDIUM	(8 to 8½)
C. LARGE	(8½ to 9)
D. X-LARGE	(9 to 9½)

The ArmOR Hand Protector offers protection to the wearer and facilitates animal restraint by allowing superior flexibility and dexterity. It offers hand and arm coverage up to the elbow. Reinforced high-injury areas provide additional protection.

The outer shell of the glove is made of durable stretch Codura, a material used in the lining of tires. The cut resistant liner is double knit made with Kevlar® by DuPont™. The knuckle is made of flexible reinforced neoprene and the palm features non-slip reinforcement patches. The gloves are flexible enough that they can be used for the administration of vaccines.

Each pair of water-resistant and machine washable gloves are available in sizes small through extra large.

WRAP CLOTH TAPE MEASURE AROUND ENTIRE PALM AT WIDEST POINT (EXCLUDING THUMB)
