

JORVET PREMIUM DENTAL SCALER/POLISHERS

A VETERINARY “CLINIC WORKHORSE” IN THE PREVENTION OF PERIODONTAL DISEASES

The most frequent dental disorder found in pets is Periodontal disease. Just like in humans, it’s a result of bacterial plaque build-up and calculus.

Without an effective hygiene program, many pets experience negative consequences such as: bad breath, inflammation and bleeding of gums, gingival retraction, and loose or lost teeth.

JorVet now offers premium Ultrasonic Dental Units that are a clinic “workhorse” and are able to withstand the rigors of daily use over time.
