

SURGICAL PROCEDURE HEADLAMP

Veterinarians often have a need for additional extra light during many procedures from surgery to oral exams. This inexpensive headlight provides hands free adjustable light-when and where you want it.

- Adjusts easily to all sizes
- Padded brim for comfort
- Battery operated (3 AAA included), no cords or wires
- LED bright light lasts thousands of hours
- LED light is adjustable to get light where you want it

Optional magnifying lens attaches just below light
