CHEW ON THIS:

Only Denamarin Chewable Tablets combine the benefits of SAME and Silybin in one patented formula.

 Each Chewable Tablet contains 225 mg of SAME and 82 mg of Silybin-phosphatidylcholine complex (SPC)*

 Improved compliance, no need to "pill"

 Scored for convenient administration

 Proven quicker and more consistent SAME absorption with chewable tablets compared to enteric-coated tablets

 For dogs of all sizes

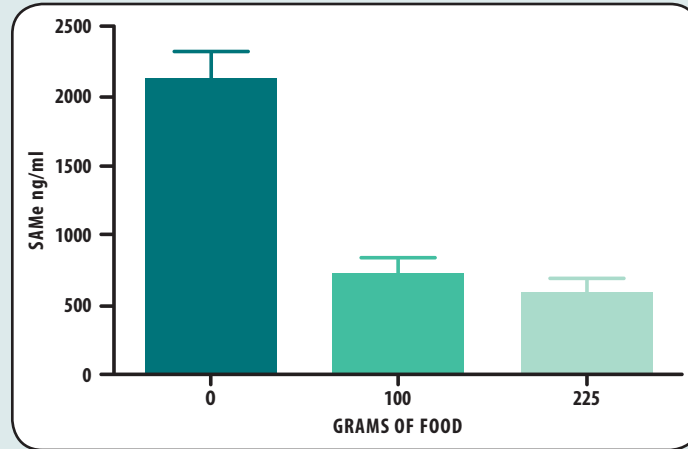

The Right Combination for Dogs Requiring Enhanced Liver Support

An earlier and more consistent SAME plasma concentration time-course was seen with the Chewable Tablets compared to enteric-coated tablets.¹

Individual fasted SAME plasma concentrations

Fasting prior to administration resulted in higher absorption than administration with a meal.

Impact of meal size on SAME plasma (C_{max}) concentration.¹

Research has shown a marked increase in SAME absorption when it is given on an empty stomach.²

Denamarin[®]

Chewable Tablets

S-Adenosylmethionine (SAME) and Silybin

- Contains 225 mg of SAME and 82 mg of Silybin-phosphatidylcholine complex (SPC)*
- Quicker SAME absorption with Chewable Tablets
- More consistent SAME absorption with Chewable Tablets
- Improved compliance, no need to "pill"
- Scored for convenient administration
- Available in 30 & 75 count bottles for dogs of all sizes

*Providing 24 mg of Silybin A+B.
