Manufactured,
Sold & Serviced by:

petMAPTM XM

Don't settle for a tiny monitor that is not upgradeable and has an inferior display.

petMAP^{XM} gives you:

- A 5" full color display.
- Configuration options for the base unit:
 - ECG (surface leads or Eso probes)
 - Temp (rectal or esophageal)
 - SpO2 choices
- Plugin modules for BP, CO2
- BlueTooth connection to petMAP Remote Display
- Portability with multiple mounting options.

WHAT, a petMAP without BP?!

Sometimes BP isn't needed. But when it is, the XM has a plug-in module for it. And, it does both NIBP and Invasive Pressures.

BPM

Blood Pressure Module

Features:

- Modular design for movement between XM units
- Switchable between NIBP and IP (2 IP channels)
- Includes 7 Cuffs and cuff extensions

petMAPTM XM , welcome to the family!
