

THE POWER TO PROVIDE PROTECTION FOR COST-CONSCIOUS PET OWNERS.

ONLY  
**\$4.49**  
PER DOSE

New value pricing (only \$4.49 per dose) lets cost-conscious pet owners purchase a product at your clinic rather than shopping at pet stores or online retailers. And it's only available at veterinary clinics.

Provecta Advanced isn't just effective on pets. It's also highly effective on profits. At just \$4.49 per dose, you can mark up the product, make a profit and bring back clients to your clinic.

**New Provecta Advanced. Maximum protection at minimum cost.**

- Affordable at \$4.49 per dose (\$17.95 for a 4-dose package)
- For dogs 7 weeks or older
- Convenient and easy to apply
- Package contains 4-month supply
- Waterproof and fragrance-free
- Remains effective after bathing or swimming

**ALSO AVAILABLE:** Provecta™ for Cats

**PROVECTA™**  
ADVANCED FOR DOGS

ADVANCED FOR DOGS

**TICKS, FLEAS AND MOSQUITOS CARRY VIRUSES, BACTERIA AND DISEASE.**

That's why you should carry Provecta Advanced.

EFFECTIVE IS NOW AFFORDABLE

Available exclusively through veterinary clinics.

**REPELS AND KILLS TICKS, FLEAS AND MOSQUITOS.**

## REPELS AND KILLS

- Repels and kills ticks for up to four weeks, including:
  - Deer ticks (vector of Lyme Disease)
  - American dog ticks (vector of Rocky Mountain Spotted Fever)
  - Brown dog ticks (vector of Ehrlichiosis)
  - Lone Star ticks (vector of Ehrlichiosis)
- Repels and kills all life stages of fleas and may reduce the incidence of Flea Allergic Dermatitis (FAD)
- Effectively targets all life stages of fleas and ticks
- Repels and kills mosquitos for up to one month, often before they have a chance to take a blood meal
- Repels and prevents blood feeding by biting flies
- Treats, prevents and controls biting lice

CONTAINS THE SAME ACTIVE INGREDIENTS FOUND IN K9 ADVANTIX® II.\*

**PROVECTA™**  
ADVANCED FOR DOGS

Repels and kills ticks, fleas and mosquitos.

## THE POWER TO STOP BLOOD-THIRSTY TICKS.

Lyme disease. Rocky Mountain spotted fever. Ehrlichiosis. They're all carried by ticks, harmful to pets and a concern for humans. But when you provide Provecta Advanced, you can protect dogs and ease the worries of their owners. It repels and kills ticks for up to four weeks, including the ticks that are vectors of those diseases: Deer ticks, American dog ticks, Brown dog ticks and Lone Star ticks.

## THE POWER TO MAKE FLEAS FLEE.

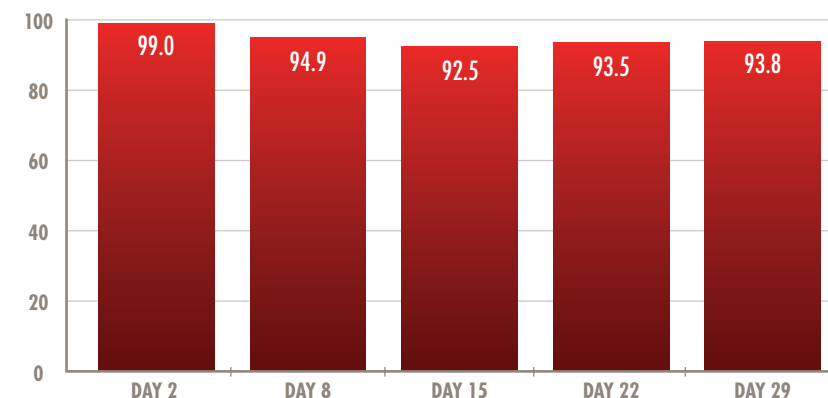

No one wants a flea-infested house. Provecta Advanced for Dogs repels and kills all life stages of fleas, which keeps them off of dogs and out of pet owners' homes. It also reduces the incidence of Flea Allergic Dermatitis (FAD). With Provecta Advanced for Dogs, fleas do not have to bite to die.

## THE POWER TO REPEL AND KILL MOSQUITOS.

Mosquito-borne diseases — like the Zika virus — have your clients worried about their family's health. And because dogs are a big part of today's families, heartworms are a big mosquito concern, too. Pet owners are looking for the most advanced protection possible when it comes to mosquitos. For the family canine, that means one thing: Provecta Advanced for Dogs.

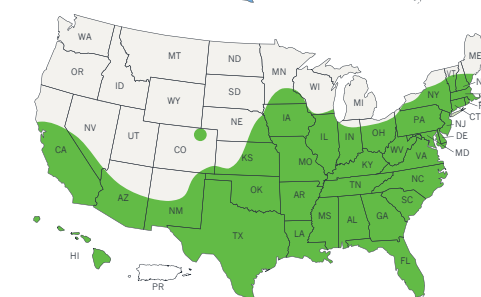

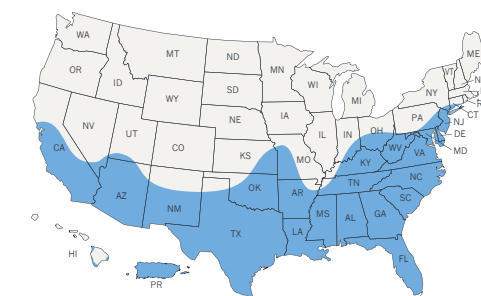

Provecta Advanced for Dogs is one of the most effective mosquito treatments available today. It contains the same active ingredient found in K9 Advantix® II\* and repels and kills mosquitos for up to one month, often before they have a chance to take a blood meal — and potentially spread disease.

### Provecta Advanced for Dogs Anti-Feeding Effect Mosquitos: *Aedes aegypti*

## FEMALE MOSQUITOS MUST FEED ON BLOOD TO REPRODUCE. LIFECYCLE OF MOSQUITOS

**EGGS:** Hatch within a few days or up to several months when covered with water.

**LARVAE:** Live in water, developing into pupae in as few as five days.

**PUPAE:** Live in water, developing into adult, flying mosquitos within 72 hours.

**ADULT:** Female mosquitos take 2-3 blood meals before laying eggs in standing water. Provecta Advanced for Dogs repels these mosquitos often before they take a blood meal. For the few mosquitos that do feed, Provecta Advanced for Dogs kills them before they have a chance to lay eggs.
