INTERNATIONAL

About Wildlife Vets International

Wildlife Vets International (WVI) is a registered charity that saves threatened species by providing in-country veterinary support and establishing sustainable capacity through partnerships with local organisations.

Millpledge & WVI

To celebrate the addition of the Rapz Eazy Tear® Natural World range to Millpledge's portfolio of products, Millpledge will be donating \$15,000 to Wildlife Vets International.

The company plan to add to this initial donation and will review contributions in the future based on sales of the Natural World range.

How you can help

Learn more about the project and how you can get involved by going to the URL below or scanning the QR code.
