

In-Floor Scale

Model SRV957IFS

The SRV957IFS is a large 24" x 48" flush mounted platform scale. This is a great alternative when floor space is at a premium. The flush surface eliminates tripping hazards and hallway accessibility issues.

The Scale features a 4.3" large color touch screen display that is easy to read. The scale surface has a non-slip polyurea coating infused with an aggregate to provide a slip-free surface for animals thus reducing the fear that animals often experience with a scale.

An optional second readout provides ease of viewing for busy staff.

CAPACITY

400 lb or 182 kg

AUTO-WEIGH

An auto-weigh feature allows the scale to wake, and display a weight when an animal steps on.

AUTO-HOLD/ RECALL

Scale will automatically lock in on weight above 1 kilogram.

WIRELESS CAPABILITY

Scale comes with peer to peer wi-fi to communicate with an optional auxiliary display (FR95X-AUX). Note: facility does not need wi-fi for this feature to work.

QR WEIGHT DISPLAY

Simply touching the displayed weight will switch the weight to a QR code for easy scanning into your medical record system.
