

KVP Rehabilitation

Balto® Up

Rear Harness Support

The Balto® Up provides mobility support for dogs with arthritis, osteoarthritis, hip dysplasia, and full or partial hind leg paralysis. Two rigid splints provide the firm stability needed for owners to help their dogs continue day to day activities, such as walking or climbing up and down stairs. It is often used by the veterinary profession during rehabilitation and physiotherapy programs.

Made from soft, breathable fabric, the it is comfortable to wear and features easy-to-use, height adjustable handles. It is engineered to allow dogs to relieve themselves naturally without soiling the brace.

Ideal for:

- Arthritis and Osteoarthritis
- Hip Dysplasia
- Full or partial paralysis of the hind legs
- Lameness
