

Why wait for the bite? Recommend Vectra 3D® to your clients.

Your clients don't want dangerous parasites feeding on their dog. Vectra 3D® kills through contact so parasites don't have to bite to die, and is only authorized for sale by veterinarians; the best source for the right care for dogs.

- Parasite bites can result in the transmission of dangerous diseases such as Heartworm, Lyme Disease, Rocky Mountain Spotted Fever and many others.
- Helping prevent the bite helps reduce the chance of disease transmission.

Mild enough for puppies as young as 8 weeks of age. Tough enough for these serious parasites.

Fast-acting. Long-lasting.

- Begins reducing flea feeding in 5 minutes and kills in 1 hour.
- Treats immature flea life stages for 2 months.
- Repels and kills multiple species of ticks: Western black-legged tick, Deer tick, American Dog tick, Brown Dog tick, Gulf Coast tick, Lone Star tick.
- Starts killing ticks in 1 hour.
- Anti-feeding (repellent) action helps reduce the risk of disease transmission.
- Kills parasites through contact so they do not have to bite to die.
- Quick drying, non-greasy, water resistant; remains effective after bathing, swimming, exposure to rain or sunlight.

Protect the love.

FLEA & TICK CONTROL

Vectra 3D

Patented applicator is a hit with veterinarians and pet owners.

- ▶ Easy does it: The rounded tip minimizes risk of skin abrasions.
- ▶ Hit the mark: Elongated tip makes it easy to reach the dog's skin through the hair coat.
- ▶ One-piece simplicity: Pushing top disk down pierces the seal – no need to remove the cap.
- ▶ No drips: Nothing comes out until you squeeze the tube.
- ▶ Precision instrument: Tested to ensure accurate dosing.
- ▶ Consumer-friendly packaging: No scissors required.

Advanced, triple-action protection.

1. **Dinotefuran:** A fast-acting, 3rd generation neonicotinoid adulticide with a unique mode of action.^{1,2}
2. **Permethrin:** A proven, broad spectrum molecule to repel and kill parasites.³
3. **Pyriproxyfen:** An IGR that prevents the development of immature flea stages for 2 months.³

Vectra 3D® has been protecting practices for over 6 years.

- ▶ Vectra 3D® is protected with **Bloodhound® Technology** – our innovative track-and-trace system.
- ▶ Helps protect product authenticity – reduces concerns about counterfeit products being sold to your clients.

Benefits your clients want.

- ▶ Efficacy: A formulation proven highly effective against vectors.
- ▶ Safety: Tested at 5 times dose with no concerns.
- ▶ Simplicity: Easy to understand, open and apply.
- ▶ Convenience: Single, monthly application.
