

Sebozole™

Miconazole Nitrate 2%
Chloroxylenol 1%

Synergistic formulation for removing scales, degreasing skin and killing cutaneous microorganisms, which primarily or secondarily cause dermatitis

Miconazole Nitrate

An imidazole antifungal with potent activity against fungi and yeast, including *Malassezia pachydermatis* and *Microsporum* and *Trichophyton* ringworm species.

Chloroxylenol

Proven antimicrobial activity against gram positive bacteria eg. *Staphylococcus intermedius* and gram negative bacteria as well as fungi and yeast.

Solubilized Sulfur and Salicylic Acid

Provide enhanced keratolytic and keratoplastic activity promoting the softening and dissolution of scale, as well as assisting in the normalization of epidermal cell kinetics and keratinization.

Sebozole does it all!

For use in dogs, cats and horses
Available sizes:
8 oz. 16 oz. Gallon

An effective treatment and control of seborrheic dermatitis associated with Malassezia pachydermatis, Staphylococcus intermedius and Dermatophytosis
