

The **DV-350 SURGICAL SUCTION UNIT** is a portable and versatile high-vacuum, low-flow medical suction unit. This unit can be used when no outlets are available, with a rechargeable battery pack that provides up to 40 minutes of on-the-go suctioning. A universal power adapter for recharging the batteries is included with the unit. The suction unit size is a 1500 ml canister. Housed in an ABS-plastic ergonomic case, the unit features a collapsible handle and easy-to-read vacuum gauge. The unit provides endoscopic and surgical procedures with a powerful, quiet and portable suction instrument.

Item #48110
