

UltiGuard[®] Safe Pack

The quality you expect:

New Ultiguard[®] VetRx insulin syringes feature 1/2 unit markings to ensure accurate dosing for pets. Every needle is individually inspected using laser technology, ensuring a more comfortable injection.

Safe Needle Disposal Made Easy:

The UltiGuard[®] Safe Pack allows you to easily access our premium quality needles and dispose of them properly. Once a needle has been used you simply pop it in the top and roll it safely out of the way. There's no need to spend more on a separate sharps container.

**Available in both u-40 and u-100 in a variety of sizes!*
