The Experience is the Difference

Laser Therapy

The Problem Solver on Your Team

Meet the most versatile member of your team. From acute to chronic, wounds to arthritis, and dogs to bunnies - laser therapy is the problem solver on your team. Fast, drug-free, surgery-free, non-invasive pain relief for your patients.

Dosing

Companion[®] therapy lasers are designed to provide you with the right dose of laser energy for every condition, every patient, every time. Protocols are built on years of clinical research to provide you with confidence and consistency.

- **SmartCoat[®] Plus Technology**
Build custom protocols based on individual patients
- **Empower IQ[™]**
Smart delivery system provides dosing guidance
- **Advanced Species-Specific Protocols**
Canine, feline, equine & exotics

Delivery

Deliver effective treatments for every condition with application-specific treatment attachments, including the patented Deep Tissue Applicator.

Benefits of the Deep Tissue Applicator:

Compression gets you closer to target tissue.

Collimation reduces energy loss.

Refractive Index minimizes light lost in transmission.

Reflection light loss is significantly reduced.

Soft Tissue Work is achieved during treatment.

Dependability

The combination of optimal dosing and delivery solutions provides you with consistent, replicable outcomes.

- **Patient Tracker**
Easily save and repeat treatments
- **Flexible Architecture**
Upgrade and update-able
- **Veterinary-Specific**
Built for durability with your needs in mind
- **Innovative Add-Ons**
Optional Companion Nanotherapy Bundle for oncology treatment

Companion Therapy Lasers

CTS-DUO

Companion's premium therapy laser

- Patient Tracker
- Intuitive Interface
- Perfect Protocol™
- SmartCoat® Technology
- Species-Specific Protocols
- Enhanced Treatment Protocols
- Built-in videos
- Optional Companion Nanotherapy Bundle

Includes:

- 4 Year Warranty
- Empower IQ, 5 Attachments
- **NEW** XL Deep Tissue Applicator
- Jump Start Program
- Mobility Kit

Power: 0.5 - 25 watts
 Modes: CW or Pulsed
 Wavelengths: 980/810 nm
 Weight: 15 lbs
 Laser Type: Class IV

CTX-IQ

Companion's flagship therapy laser

- Patient Tracker
- Intuitive Interface
- Perfect Protocol™
- SmartCoat® Technology
- Species-Specific Protocols
- Built-in videos
- Battery operation

Includes:

- 4 Year Warranty
- Empower IQ, 4 Attachments
- Jump Start Program
- Mobility Kit

Power: 0.5 - 15 watts
 Modes: CW or Pulsed
 Wavelengths: 980/810 nm
 Weight: 9 lbs
 Laser Type: Class IV

CTX

Superior outcomes, affordable entry point

- Intuitive Interface
- Perfect Protocol™
- SmartCoat® Technology
- Species-Specific Protocols
- Built-in videos
- Battery operation

Includes:

- 3 Year Warranty
- Empower DS, 4 Attachments
- Standard Marketing Kit

Power: 0.5 - 15 watts
 Modes: CW or Pulsed
 Wavelengths: 980/810 nm
 Weight: 8.5 lbs
 Laser Type: Class IV
