Renal Essentials Pro is recommended to support and maintain proper kidney function and mineral balance.

CHICKEN LIVER FLAVOR

RECOMMENDED FOR:

- › Geriatric dogs and cats more prone to decreased kidney function
- › Pets requiring support for circulatory and kidney health
- › Pets in times of increased levels of stress
- › Kidney support that complements traditional approaches to immune health
- › Proper kidney function after surgery

Renal Essentials Pro is a superior kidney support formula that helps promote optimal kidney function during times of stress.

Helps maintain proper kidney function by supporting:

- › Renal circulation
- › Immune and antioxidant defense system functions
- › Homocysteine balance
- › Normal fluid retention
- › Stress management
- › Kidney and liver function
- › Normal detoxification

INGREDIENTS OF INTEREST:

- › Astragalus Root Powder is an adaptogen that supports immune system function and kidney circulation.
- › Rehmannia is a Chinese herb traditionally used as a blood tonic and to support urine flow. It is an adaptogen that supports kidney circulation and function as well as liver function.
- › Nettle (*Urtica dioica*) Seed Extract supports the immune system, circulation, normal detoxification functions, and balanced fluid retention.
- › *Cordyceps sinensis* Extract is an adaptogen and antioxidant. It supports immune system function, energy production, and normal kidney detoxification and function.

- › Vitamin B1 is an antioxidant that supports efficient kidney circulation and the metabolism of fats, carbohydrates, and proteins for proper energy production.
- › Vitamin B2 is found in the largest concentrations in the liver, kidney, and heart. It is an antioxidant that supports metabolic activity for optimal energy production and the removal of unwanted materials from the kidneys. The B vitamins together may help reduce oxalate problems in the kidney and decrease fluid retention. Supplementation may be beneficial as B vitamins are water-soluble and aren't properly recycled in times of kidney distress.
- › Folic Acid, DMG, Vitamin B2, Vitamin B12 and Vitamin B6 help support circulation, methylation, and sulfuration pathways.
- › Potassium is essential for mineral balance and water absorption.
- › L-arginine is an amino acid that supports kidney function and circulation.
- › Lecithin may help protect the kidneys from fatty build up.
- › Choline and Inositol are phospholipids that support normal fluid retention.
- › DMG, EPA, and DHA support immune function, balance eicosanoid production, and blood flow to the kidneys.

DIRECTIONS FOR USE:

0-30 lbs:..... 1 chew daily
 31-60 lbs:..... 2 chews daily
 61+ lbs:..... 4 chews daily

For finicky cats, break chew into pieces.

ACTIVE INGREDIENTS PER CHEW:

<i>Astragalus membranaceus</i> Root Powder	120 mg	Potassium (K Citrate).....	16.5 mg
<i>Rehmannia glutinosa</i> Root Extract	100 mg	Inositol	16 mg
Nettle (<i>Urtica dioica</i>) Seed Extract	100 mg	Pyridoxine HCl (Vitamin B6)	16 mg
<i>Cordyceps sinensis</i> Extract	100 mg	Thiamine (Vitamin B1)	8 mg
Lecithin	100 mg	Riboflavin (Vitamin B2)	8 mg
L-Arginine	100 mg	Choline Chloride	8 mg
N,N-Dimethylglycine HCl (DMG)	50 mg	Folic Acid	0.30 mg
Eicosapentaenoic Acid, EPA (Fish Oil)	45 mg	Methylcobalamin (Vitamin B12).....	0.10 mg
Docosahexaenoic Acid, DHA (Fish Oil)	30 mg		

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, chicken liver flavor, citric acid, citrus pectin, fish oil concentrate, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

PROTEIN MIN	18.06%	FAT	9.15%	FIBER	1.39%	ASH MAX	8.22%	CARBS	47.03%	CALORIES PER CHEW	17
