

Eco-Drape Roll

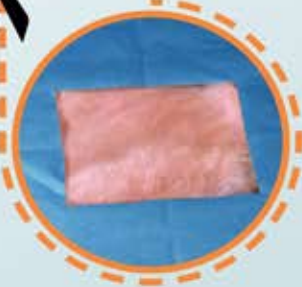

Strong and durable surgical fabric

High performance surgical blue fabric. A combination of cellulose and synthetic fibers producing a high performance non-woven, sterilizable medical/surgical fabric. Soft, conformable and easy to handle. Allows patient's body to "breathe" whilst maintaining an effective barrier.

CODE	DESCRIPTION	PACK
MP01268A	ECO-DRAPE™ ROLL 24" x 11yds	1
MP01272A	ECO-DRAPE™ SHEETS 40" x 40"	10

Easily cut to size or shape allowing preparation and fenestration for any required procedure.

STERILIZABLE BY ALL KNOWN METHODS:
The construction allows complete penetration by steam, ethylene oxide and gamma irradiation.

Features & Benefits

Adequate surface absorbency avoids immediate "run off", yet excellent wetting resistance to fluid penetration prevents "strike through".

An ideal combination of both dry and wet burst tensile strength to allow for use as patient drape in longer surgical procedures.
