

# DELUXE LECTRO-KENNEL GEN II

GIVE PATIENTS EXTRA WARMTH WHEN NEEDED OR HELP REDUCE HYPOTHERMIA DURING RECOVERY

Hypothermia is a constant risk for the small veterinary surgical patient. Patient comfort should also be considered for every patient in a veterinary clinic, and your clients expect it.

The new Gen II Lectro-Kennel has a unique built-in sensor and an easy-to-read adjustable (80°F-100°F) digital thermostat with a simple push button design that makes this product the only one of its kind using only 40 watts (for small size only).
