

SALVO™

FLEA & TICK COLLAR FOR DOGS

SALVO™ CONTAINS DELTAMETHRIN, THE ACTIVE INGREDIENT USED IN SCALIBOR® PROTECTOR BAND FOR DOGS.

NEW SALVO PROTECTS AGAINST FLEAS FOR UP TO 6 MONTHS

Easy-to-use Salvo™ flea and tick collar quickly and effectively protects dogs from fleas and ticks. Fleas on the dog are killed and fleas in the dog's environment that may appear on your pet will be killed. Salvo will also kill ticks, including Brown dog tick (*Rhipicephalus sanguineus*), American dog tick (*Dermacentor variabilis*), and deer ticks (*Ixodes scapularis* and *Ixodes pacificus*), which may carry Lyme disease.

The odorless Salvo collar is specially formulated using insecticide release technology which works with the natural oils in your dog's skin to distribute the active ingredients over the dog's body. The collar should be worn continuously. Reapply a new collar every 6 months.

KILLS FLEAS

KILLS TICKS

WATERPROOF

LONG-LASTING

How To Apply: Place collar around dog's neck, adjust for fit, and buckle in place. The collar must be worn loosely to allow for growth and to permit the collar to move about the neck. A properly fitted collar is one that when fastened will snugly slide over dog's head. Leave 2 or 3 inches for extra adjustment. Cut off and dispose of excess length. Wash hands after placing the collar on pet. Replace collar every six months, or sooner if needed.

EASY TO USE

Apply one Salvo collar every 6 months for continuous flea & tick protection. Just two collars protect your dog for up to a year.

Fast action kills fleas and ticks on the dog for up to 6 months

Works on contact! Fleas and ticks don't have to bite to die
