

The Facts

No Mixing. . . No Mess. . . No Harmful Residues

WYSIWASH is a patented chlorine delivery system for use with solid calcium hypochlorite tablets that literally turns water into magic.

Protect Your Environment

The WYSIWASH cleaning system was designed to provide EPA-registered and USDA-approved levels of active chlorine at the end of your hose. Therefore, WYSIWASH eliminates algae, microorganisms, fungi, bacteria, and viruses that cause disease, odor and corrosion. Besides washing the dirt and debris away, the cleaning solution is environmentally friendly, biodegradable and non-corrosive.

Protect Your Employees' Safety

Many cleaning products can harm your employees. With WYSIWASH, your employees are safe from the danger of burns, bleached clothing and harmful residues. As long as they follow the simple instructions, they are free from toxic levels of chemicals and protected from injuries.

Safe to Use around Animals

WYSIWASH uses a low concentration of highly-effective HOCL that is biodegradable and environmentally friendly. While it's not recommended that you douse your animals, sanitizing the area will not leave hot spots with high concentrations that will irritate an animal's skin.

Non-corrosive Unlike Other Cleaners

WYSIWASH uses a biodegradable treatment which is essentially non-corrosive when used according to the directions.

New convenient 9 pack

Costs less than a penny per gallon!

Work Smarter...Not Harder!

- Works with either cold or hot water! (140°F / 60°C)
- Caplets last up to 3½ hours continuous use
- No Mixing. . . No Mess. . . No Harmful Residues
- No Rinsing Necessary
- ORP rating of 750 millivolts, which means instantaneous pathogen destruction!

WYSIWASH®

The Ultimate Cleaning Solution

Wysiwash is a revolutionary, patented, 21st century system that changes the way people sanitize. Wysiwash means disinfection from the end of a water hose.

Find out how WYSIWASH can clean and protect your home or business. . .

Why Wysiwash?

WYSIWASH[®]

The Wysiwash Sanitizer is not only a hose-end sprayer. It is a precisely calibrated, scientifically designed and tested, patented sanitizing system

The Wysiwash System will effectively clean, sanitize, and eliminate odors while blasting away dirt with a jet stream of water.

The hydro-injection venturi system produces a solution of hypochlorous acid that is up to 120 times more effective than liquid bleach!!!

Wysiwash is so easy to use that you will sanitize more often with increased effectiveness. Simply connect the Wysiwash Sanitizer to the hose and spray. There is no need to worry about proper dispensing-it's automatic!

WYSIWASH[®] has unlimited applications in the world of commerce and industry because

- 💧 WYSIWASH'S effectiveness, safety, cost, and ease of use surpasses all other sanitizers.
- 💧 WYSIWASH eliminates the dangerous viruses and bacteria that plague society.
- 💧 WYSIWASH is up to 120 times more effective than household bleach in eliminating odors and disease.

- Kills bacteria, and viruses,
- Kills algae, and mold
- Eliminates the need for scrubbing
- No bleach stains
- Sanitizes equipment and facilities
- Non-corrosive to equipment
- No batch mixing
- Pet, Plant & People Friendly
- Will NOT harm Septic Systems
- One-step wash
- EPA-registered and USDA-approved treatment levels of chlorine
- No rinsing necessary
- Very economical
- Environmentally friendly
- Saves time
- Frees you from unnecessary liability

- ⊖ Humane societies and animal rescue facilities
- ⊖ Veterinary clinics
- ⊖ Animal housing and pens
- ⊖ Athletic facilities
- ⊖ Campgrounds
- ⊖ Military/government facilities
- ⊖ Commercial produce trucks
- ⊖ Greyhound and horse tracks
- ⊖ Fresh and frozen fish facilities
- ⊖ Farm produce warehousing
- ⊖ Cooling towers and systems.

NOTICE TO HEALTH OFFICIALS:

The Wysiwash System has limitless applications in the public health field. For HAZMAT use, it can be used to decontaminate equipment of pathogens without hydroxyl alkalinity found in sodium hypochlorite solutions. This alkalinity is extremely damaging to aluminum, rubber, and some plastic equipment.
